

## **MacDon D1 Draper and FDI FlexDraper® for Combines (Next Level Draper Performance!)**

### ***(30 Seconds)***

MacDon D1 Draper and FDI FlexDraper® headers are designed to maximize productivity in the most challenging harvesting conditions. From our Active Float System that keeps our headers true-to-the-ground, to the outstanding pick-up performance of our reel, to the combine optimized increased capacity of our FeedMacX™ crop feeding system. It all adds up to getting the most from your field, in any crop, in any condition, and on any combine.

Take your harvest performance to the next level, ask [dealer name and location] about a MacDon D1 Draper or FDI FlexDraper® for your combine.

## **MacDon D1 Draper and FDI FlexDraper® for Combines (Take Combine Performance to the Next Level!)**

### ***(30 Seconds)***

Maximize combine performance with the new FeedMacX™ Crop Feeding System on MacDon D1 Draper and FDI FlexDraper® headers. Designed to be custom configured to match any combine's performance capabilities, providing peak capacity, optimized feeding, and overall increased productivity. FeedMacX™ delivers up to 20% more capacity over the previous model, and gets you the most from your fields, in any crop, in any condition, and on any combine.

Take your harvest performance to the next level, ask [dealer name and location] about a MacDon D1 Draper or FDI FlexDraper® for your combine.

## **MacDon FDI FlexDraper® for Combines (The Next Level of the Original FlexDraper®)**

### ***(30 Seconds)***

MacDon FDI Series FlexDrapers continue to advance harvesting innovation, featuring MacDon Flex-Float Technology®. The flex advantage comes from a fixed reel-to-cutterbar relationship, which maintains a small gap between the reel fingers and cutterbar, while the Active Float System allows for instant lateral and vertical float response over rolling and uneven terrain. The result of our Flex-Float Technology® is smooth, consistent, heads-first feeding that significantly boosts combine productivity.

Take your harvest performance to the next level, ask [dealer name and location] about a MacDon FDI FlexDraper® for your combine.

## **MacDon R1 Series Pull-Type Disc Mower (Transport)**

### ***(30 Seconds)***

Time. If you need more of it that's just what you'll get with MacDon's R1 Series Pull-Type Rotary Disc Mowers. In just 30 seconds the Road-Friendly Transport option transforms both a 13 foot or a 16 foot R1 into a narrow 9-foot wide transport, allowing for quick travel to, from, and between fields. No matter the crop or harvesting condition, the all-new forward mounted cutterbar design provides a cleaner, smoother cut than ever before. Get home sooner with the MacDon R1 Series Pull-Type Disc Mower.

Ask [dealer name and location] about an R1 Pull-Type for your operation.

## **MacDon R1 Series Pull-Type Disc Mower (Performance)**

### ***(30 Seconds)***

MacDon's R1 Series Pull-Types are ready to perform all of your conditioning needs. Featuring the industry's widest conditioning rolls at 129 inches and 4 interchangeable conditioning options, the R1 lays down well-formed, well-conditioned wide to narrow windrows. The unique movement of the Responsive Float System along with the all new forward mounted cutterbar design provides true, even ground following and a clean, smooth cut every time. Best of all, it's backed by a 3 Year Cutterbar Warranty.

Ask [dealer name and location] about an R1 Pull-Type for your operation.

## **MacDon FD75 FlexDraper® for Combines (Critical GAP)**

### ***(30 Seconds)***

The MacDon FD75 FlexDraper® continues to advance harvesting technology. Featuring our fixed reel to cutter bar relationship, this unique design maintains a consistently small critical gap between the reel fingers and cutter bar, even at maximum flex. That's innovation that significantly boosts combine productivity, and it's the reason why more and more top producers and custom harvesters trust MacDon FlexDrapers® with their harvest.

Ask [dealer name and location] about an FD75 FlexDraper® for your combine.

## **MacDon FD75 FlexDraper® for Combines (Reel Performance)**

### ***(30 Seconds)***

The MacDon FD75 FlexDraper® continues to advance harvesting technology. Featuring the exceptional lifting action of our PRI5 pick-up reel, this reel is designed to bring together the benefits of a flip over reel with adjustable cam-leading fingers. That's innovation that, means it can handle just about any crop in any harvest condition, low podding, downed, tangled, even lodged crops. That's the reason why more and more top producers and custom harvesters trust MacDon FlexDraper® with their harvest.

Ask [dealer name and location] about an FD75 FlexDraper® for your combine.

## **MacDon D65 Drapers**

### ***(30 Seconds)***

When the going gets tough, MacDon D65 Draper headers keep cutting. Low podding, downed, tangled, or even lodged crops, whatever the harvesting situation the D65 excels as a multi-crop harvesting solution; it's the ultimate example of productivity meets adaptability. This "Can Do" attitude delivered with MacDon reliability and performance, is the reason why more and more top producers and custom harvesters trust MacDon Drapers with their harvest.

Ask [dealer name and location] about a D65 for your operation.
